Subject: Declaration of Satisfaction Delivery and engineering mega banner frame

Royal van Lent has contacted Poltruss, through our Construction Management Consultant Bouwimpuls, for the delivery of a MEGA banner frame.

Based on the banner's measurements calculated by our constructor, Poltruss has made a proposal and developed a frame designed on the basis of NON-standard elements.

Poltruss showed a proactive attitude and assist us with advice, they manufactured a frame specifically designed for us.

The frame has been designed and produced professionally and with expertise. Moreover, it has been made, and delivered at our site in The Netherlands, within a very short period of time.

We are very satisfied with the quality and the outstanding performance, especially when we consider the costs. Poltruss has proven to be a reliable partner.

Kind regards,

Royal Van Lent Shipyard B.V.
